O3 Mining has drilled approximately 26,000 metres as part of an originally announced 50,000 metres program in September 2019. The first drill was mobilized earlier this week and more drills will continue to be mobilized in the near term.

### Highlights:

- **100,000 metres** will be added to the current 50,000 metre drill program for a **total of 150,000 metres** to be completed by December 2021
- The **exploration budget** for the expanded drill program is **CDN \$24 million**
- **Drilling will continue year-round**, with 3 to 5 drill rigs expected this summer
- Drilling will focus on:
  - **Malartic – Development and Advanced Exploration:** Marban PEA results in Q4 2020; New regional drill targets to be explored on the Malartic property northwest of Marban.
  - **Alpha – Resource Development:** Expansion laterally and down plunge at Sector 1 (Orenada Zone #4, #2, Bulldog, Epsilon, and Pontiac Zones), Sector 2 (Akasaba, Sabourin, and Valdora) and Sector 3 (Simkar)
  - **Alpha – Advanced Exploration:** Follow-up on the previous drilling at Sector 4 (Omega), located immediately south from the Sigma-Lamaque mine
  - **East Cadillac – Advanced Exploration:** Expansion of mineralization at North Contact and Simon West
